

# Global Income & Capital Protection Program

Seeks to avoid excessive volatility while providing a stream of current income. Targets an asset mix of 70%-80% in fixed income securities and 20%-30% in equity type securities.

At Richard C. Young & Co., Ltd., we are committed to meeting our clients' medium long-term investment needs with care and skill. We are not insurers of performance and do not offer insurance for future investment. Our primary focus is to invest in securities that pay interest and dividends.

Matthew A. Young, President & Chief Executive Officer |  Fidelity Investments
